# MYOVIEW 30ML - (N/A ; Injectable)

| | | | |
|---|---|---|---|
| **Generic Name** | TECHNETIUM TC-99M TETROFOSMIN KIT | **Innovator** | MEDI-PHYSICS |
| **Dosage** | N/A ; Injectable | **Branded US Sales** | Less Than $1000 mn |
| **Probable FTF** | None | **Known Para IV Filers** | None |
| **Other ANDA developers** | None | **Tentative Approvals** | None |
| **Final Approvals** | None | **Generic Launches** | None |
| **Indication** | MYOVIEW is a kit for the preparation of technetium Tc99m tetrofosmin for injection. Technetium Tc99m tetrofosmin injection is a radioactive diagnostic agent indicated for the following: * Myocardial perfusion imaging under rest and/or exercise or pharmacologic stress conditions to delineate regions of reversible myocardial ischemia or infarcted myocardium in patients with known or suspected coronary artery disease, * Assessment of left ventricular function (left ventricular ejection fraction and wall motion) in patients with known or suspected heart disease. | | |
| **Complexities** | Yes | | |
